Highway Patrol Warns Motorists On Turnout Law

The California Highway Patrol reminds vacationists who plan trips into the mountains of California this summer that the "turnout" law will be enforced wherever appropriate signs have been posted.

THE TURNOUT law requires slow moving vehicles to move aside and allow impeded traffic to pass. Turnout areas have been built on two-lane highways throughout the state where traffic and road conditions warrant. Signs reading "Turnout 1/4 mile" give advance notice while others reading "Turnout" mark the location.

"Under the law," a motorist who is being followed by five or more cars must turn off at these marked locations and permit the cars behind to pass," Bradford M. Crittenden, Commissioner of the California Highway Patrol, declared.

CRITTENDEN said the law defines a slow moving vehicle as "one which is proceeding at a rate of speed less than the normal flow of traffic at the particular time and place."

"Purpose of this law is to eliminate the hazards caused by a slow moving vehicle blocking other cars. It should reduce the number of head-on collisions that occur on two-lane roads because a motorist got impatient at being delayed and gambled he could safely get around the slower vehicle."
